

HSCB Safe & Together Implementation Committee

Domestic Violence Consultation and Technical Assistance Team

Project Design

The Domestic Violence Consultation and Technical Assistance Team (DV-CTAT) of the HSCB Safe & Together Implementation Team exists to provide survivor centered, coordinated services to survivors of domestic violence in Macomb County.

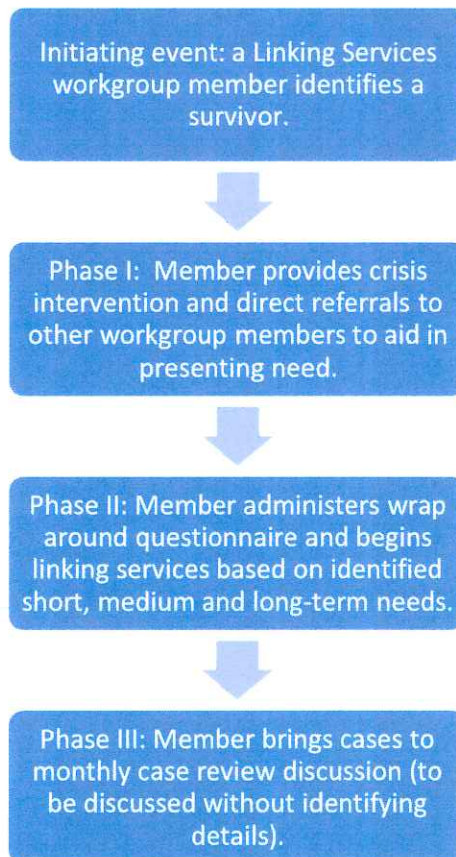

Agencies that participate in this workgroup are expected to provide:

- a Safe & Together team member who can provide information and services to survivors at their own or other member's agencies through a direct referral between team members (vs the survivor cold calling your agency)
- a Safe & Together team member who participates in the monthly case review discussions

Agencies that participate in this workgroup will receive:

- survivor centered, coordinated services for survivors of domestic violence who are receiving services at their agency
- technical assistance and support in implementing the Safe & Together Model
